

Petition to Mayor & Council to Protect Taxpayers & Workers in the Awarding of Public Contracts and Financial Incentives

- Whereas,** taxpayers want to require that tax incentives are given to projects that provide unique benefits to the entire community, protect the neighborhood surrounding any such project, and ensure that workers are treated fairly in a safe working environment;
- Whereas,** taxpayers want contracts for public construction projects awarded to responsible employers that represent the values of our community;
- Whereas,** recent events in Framingham have highlighted the lack of safeguards on the use of public funds and protections for workers;
- Whereas,** projects receiving public funds should provide community mitigation to address neighborhood concerns;
- Whereas,** wage theft is often accompanied by employer tax and insurance fraud, with employers failing to pay their payroll taxes and workers compensation premiums;
- Whereas,** the award of public contracts or tax incentives are a successful tool to increase the city's tax base and produce new tax revenue by attracting new businesses to Framingham and encouraging existing companies to expand in the city;
- Whereas,** these financial tools and incentives stimulate development, and when in tandem with other local support programs, strengthen the City's ability to expand its industry base and create permanent and full-time jobs for Framingham residents;
- Whereas,** many communities have recently established these taxpayer and worker protections;
- Whereas,** Framingham residents want its municipality to adopt the proven practices and policies of other communities to improve the quality of life of its residents; now,
- Therefore,** we the undersigned petition the Mayor and Council to establish an ordinance to protect taxpayers and workers in the awarding of public contracts and financial incentives in Framingham.

Be it ordained by the Framingham Council, as follows:

Protect taxpayers and workers in the awarding of public contracts and financial incentives in Framingham

5. meet all local, state and federal permitting, licensing and regulatory requirements;
 6. generate an increase in property tax revenue;
 7. demonstrate that the Tax Relief is necessary to either off-set the cost of the project, retain and expand its operations in Framingham, or locate its operations to Framingham;
 8. provide a project pro forma which demonstrates the financial need for tax increment financing and/or a written statement from the lender or principal funding provider noting the importance and basis therein of tax increment financing to the overall financial package assembled to finance the project;
 9. demonstrate evidence of the required financing to complete the proposed project;
 10. include a plan to use its best efforts to purchase supplies, materials, and services from suppliers and vendors located in Framingham, including requesting proposals from Framingham suppliers and vendors, giving preference to Framingham suppliers and vendors that are both qualified and competitive; and,
 11. include a plan to use its best efforts to hire a minimum of 50% of its contractors and sub-contractors from qualified local (within thirty miles of the project address) companies, contractors and sub-contractors.
- B. Any request for tax relief shall comply with the following qualifications and conditions at all times during their performance of work on the property:
1. The contractor has not been debarred or suspended from performing construction work by any federal, state or local government agency or authority in the past five years;
 2. The contractor has not been found within the past five years by a court or governmental agency in violation of any law relating to providing workers compensation insurance coverage, misclassification of employees as independent contractors, payment of employer payroll taxes, employee income tax withholding, earned sick time, wage and hour laws, prompt payment laws, or prevailing wage laws;
 3. The contractor must maintain appropriate industrial accident insurance sufficient to provide coverage for all the employees on the project in accordance with M.G.L. c. 152 and provide documentary proof of such coverage as part of the application process, or prior to commencing any work to the Chief Procurement Officer to be maintained as a public record;
 4. The contractor must properly classify workers as employees rather than independent contractors and treat them accordingly for purposes of minimum wages and overtime, workers' compensation insurance coverage, unemployment taxes, social security taxes and state and federal income tax withholding. (M.G.L. c. 149, §148B on employee classification);
 5. The contractor must comply with M.G.L. c. 151, §1A and M.G.L. c. 149, § 148 with respect to the payment of wages;
 6. The contractor must be in compliance with the health and hospitalization requirements of the Massachusetts Health Care Reform law established by Chapter 58 of the Acts of 2006, as amended, and regulations promulgated under that statute by the Commonwealth Health Insurance Connector Authority;

**Petition to Mayor & Council to Protect Taxpayers & Workers
in the Awarding of Public Contracts and Financial Incentives**

7. The contractor shall not discriminate against citizens of states other than Massachusetts in hiring individuals for the project but, as between prospective employees who are residents of Massachusetts, however, shall give preference to residents of the City;
 8. The applicant shall submit monthly a list to the City of all the expected contractors to work on the project as part of the applicant's request for Tax Relief, including the name of the primary contact, the Contractor's address and either a phone number or email address;
 9. The applicant and/or the contractor must submit monthly to Chief Procurement Officer certified payrolls for all contractors in certified payroll format provided by the City that includes the employees full name, address, identifying number, gender and race, and which tabulates hours worked for females, people of color and residents of the City, and a copy of the OSHA 10 card for every employee attached to the first certified payroll they submit on which the employee appears;
 10. The contractor must make arrangements to ensure that each employee of every contractor and subcontractor of any tier entering or leaving the project individually completes the appropriate entries in a daily sign-in/out log. The sign in/out log shall include: the location of the project; current date; printed employee name; signed employee name; name of employee's employer and the time of each entry or exiting. Such sign-in/out logs shall be provided to the City on a weekly basis with the certified payrolls and shall be a public record.
- C. If any person or entity subject to the foregoing qualifications and conditions fails to comply with any of them with respect to work on the property, the parties agree that such an event materially frustrates the public purpose for which this Tax Relief Agreement (and any certification or other form of approval that may have been granted by the state) was intended to advance. In such an event, the Tax Relief granted by this Agreement shall be terminated upon written notice to the property owner, and the property owner shall pay to the City an amount equal to the value of any tax relief or grant that was received prior to the termination of this Agreement. Where required, the City shall petition the appropriate state agency or body for revocation of the certification or approval and, upon such revocation, the tax relief provided by this Agreement shall be terminated and the property owner shall pay to the City an amount equal to the value of the tax relief or grant that was received prior to the termination of this Agreement.
- D. The applicant certifies as part of the application process that any contractor or subcontractor previously determined by the City or by any court or agency to have violated any of the obligations set forth in Paragraphs B above for the previous five years shall not be hired to perform work on the project.
- E. In the event the owner of the property or any other person challenges the termination of the tax relief provided by this Agreement and/or the revocation by the state of any certification or approval, the owner shall set aside in an escrow account an amount equal to the full amount of the tax savings that previously would have accrued under this Agreement while any such challenge remains pending. The owner of the property shall have a continuing obligation to contribute to the escrow account amounts equal to any additional tax savings that accrue under this Agreement while its challenge remains pending. The owner

shall promptly provide to the City with documentation of its compliance with this obligation. The conditions of the escrow account shall provide that, in the event the owner such other person is unsuccessful in its challenge, the funds in the account shall be paid to the City. The owner's obligations under this subsection shall be judicially enforceable. It is the intent of the parties that the residents of this municipality are third party beneficiaries of this Agreement, and that it may be enforced in a civil proceeding brought by not less than ten (10) taxable inhabitants.

Section 4. MUNICIPAL CONSTRUCTION CONTRACTS.

Whenever the City of Framingham is procuring construction services subject to the provisions of M.G.L. chapter 149, Chapter 149A or chapter 30, §39M, the following shall be incorporated into the procurement documents and made part of the specifications and contract.  3. The contractor shall maintain appropriate industrial accident insurance sufficient to provide coverage for all the employees on the project in accordance with M.G.L. chapter 152 and provide documentary proof of such coverage included with the contractor's submitted bid to the Chief Procurement Officer to be maintained as a public record;

The log shall contain a prominent notice that employees are entitled under state law to receive the prevailing wage rate for their work on the project. Such sign-in/out logs shall be provided to the City on a weekly basis with the certified payrolls and shall be a public record;
8. The contractor, prior to bidding or, if not subject to bidding requirements, prior to performing any work on the project, shall sign under oath and provide to the City a certification that they are not debarred or otherwise prevented from bidding for or performing work on a public project in the Commonwealth of Massachusetts or in the City;
9. The contractor must be in compliance with the health and hospitalization requirements of the Massachusetts Health Care Reform law established by Chapter 58 of the Acts of 2006, as amended, and regulations promulgated under that statute by the Commonwealth Health Insurance Connector Authority;
10. The contractor must submit weekly to Chief Procurement Officer certified payrolls for all employees. A certified payroll format will be provided by the City that includes the employees full name, address, identifying number, gender and race, and which tabulates hours worked for females, people of color and residents of the City. Each contractor shall provide a copy of the OSHA 10 card for every employee attached to the first certified payroll they submit on which the employee appears;
11. The applicant and contractor agrees to attend all regularly scheduled and/or special meetings convened by the City for the purpose of reviewing workforce hiring commitments in section 6.

- D. Any proposer, bidder, trade contractor or subcontractor under the bidder or proposer that fails to comply with any one of obligations set forth in Paragraph A above or any other requirements in bid or contract documents for any period of time shall be, at the sole discretion of the City, subject to one or more of the following sanctions: (1) cessation of work on the project until compliance is obtained; (2) withholding of payment due under any contract or subcontract until compliance is obtained; (3) permanent removal from any further work on the project; (4) liquidated damages payable to the City in the amount of 5% of the dollar value of the contract.
